Investments in the Products are speculative investments that involve high degrees of risk, including a partial or total loss of invested funds. Second Mountain Products are not suitable for any investor that cannot afford loss of the entire investment. Past performance is not indicative of future returns. Performance reflects the closing price of the Product's shares at 4pm, New York time, on Binance Futures markets. Market Price of the HODL portfolio began being measured on 08/12.

Investment Objective & Approach

Second Mountain prioritizes user control by enabling you to hold and manage your portfolio of large-cap digital assets directly, without relying on third-party custodians. Unlike traditional investment vehicles, our platform empowers you to bypass the complexities of buying, storing, and safeguarding digital assets. By linking your investments directly to your Binance account, you maintain direct ownership and control, while still benefiting from risk-managed strategies and professional insights.

Our goal is to provide an investment experience where the value of your portfolio is directly aligned with market performance, reflecting the digital assets you hold, with full transparency and user control. With Second Mountain, you can be confident that your assets are always accessible, always secure, and entirely within your hand
